CAPABILITY STATEMENT · RIZK INDUSTRIES

Capability statement

AS OF

2026-11-17

Company overview

Rizk Industries builds software and AI systems, and researches devices in its laboratory. It has two lines of business, Mastersmith Systems (systems to be run for a business, with a measured weekly result; in development) and Corner (software that runs a fitness coach's business; live), and a laboratory. It does its own work on an AI system its founder built.

Core competencies

- Software built and tested to a written statement of work.
- AI systems that operate a defined task, with their results reported and checked.
- Research on agent systems, real-time digital humans and simulated worlds.

What sets it apart

- Every number on its site is read from its source when the site is built, and a test fails the build if one is typed. The record
- 116 tagged releases, since July 2026, of the AI system its founder built. At least one commit was made on 125 of the last 128 days.
- Corner is covered by 3,945 automated tests.

- A separate reader checks work before it is published or delivered.

Past performance

None is claimed. The company was formed on 2026-11-12 and has no client yet.
